

Beta-Spot

Iodine/Betadine™ Spot Remover

Beta-Spot removes Iodine (Betadine) spots and stains from most surfaces including carpet and vinyl floors. Iodine solutions, a common antiseptic, are very staining and when left on a surface, the spot can quickly become a permanent stain. **Beta-Spot** will eliminate these stains and make the floors look new.

Use in operating rooms, intensive care units, doctors offices, dental offices, nursing homes, veterinary clinics, schools, homes, or any other place iodine may be used.

Medical facilities will benefit from Beta-Spot. Heres why:

Iodine solutions are commonly used in medical facilities for disinfecting wounds or surgical incisions. Unfortunately, it is spilled often. If not cleaned up quickly,

the floors and many other surfaces become permanently stained and have a poor appearance. **Beta-Spot** will eliminate these stains and make the floors look new.

Beta-Spot is safe to use on all types of carpeting, vinyl floors, vinyl composition tile (VCT), linoleum, asphalt tile, countertops, clothing, or any other water safe surface. Most spots, if caught early, will be removed immediately. Spots left over time may require extra contact time to totally remove the stain. Will not dull or damage floor finishes or UVi Finish. Rinse thoroughly after use with water.

Specifications for Beta-Spot

Appearance Clear Liquid, mild odor
 pH 6 - 8
 Specific Gravity 1.12
 Flashpoint None, non-flammable
 Dilution Ready-to-Use, Use straight
 Storage Stability Excellent, 1 year minimum
 Freeze-Thaw Stability Will Freeze. Usable after thawing with no change in performance.

Note: If being used for the first time, test for colorfastness. Keep away from acids and heat to avoid releasing irritating gas.

Packaging
 6 qt case, #910298

*Betadine™ is a trade mark of Purdue Frederick Co.
