

Lino-Strip

Linoleum Floor Stripper

LINO-STRIP is an advanced stripper designed to safely remove UVi Finish and conventional floor finishes from genuine linoleum floors. When used as directed, **LINO-STRIP** will not harm genuine linoleum like traditional caustic (high pH) strippers can.

Genuine Linoleum (not to be confused with vinyl flooring) is made up of natural materials, i.e. Linseed Oil. It is relatively easy to maintain, but has some unique limitations. Genuine Linoleum is sensitive to alkaline cleaners & strippers and excess moisture. To prevent damage to genuine linoleum floors, all cleaners and strippers must be less than pH of 10.

DIRECTIONS: This product is to be used only by appropriately trained personnel. These directions are solely for the convenience of properly trained persons. See Method Bulletin 1414, "Linoleum Floor Care" for further warnings and information.

1. Dilutions: (use cool water only). For stripping light build-up of conventional floor finishes, dilute 1:4 (32 oz per gal of water). For stripping UVi Floors or moderate/heavy build-up of conventional floor finish dilute 1:2 (64 oz per gal of water). **2.** Apply liberally to a manageable area. **Caution:** *Treated areas may become slippery.* **3.** Allow solution to react for 5 to 10 minutes - **NO LONGER. DO NOT ALLOW SOLUTION TO DRY ON FLOOR.** **4.** Scrub with floor machine or autoscrubber equipped with green stripping pads or soft brushes. **DO NOT** use Brown, Black, or Hi-Pro Stripping Pads or stiff brushes, as they can damage genuine linoleum. Pick up spent solution with wet/dry vacuum or automatic scrubber. **5.** Rinse with plain water or 1 oz./gal. Century Maintenance Cleaner as a rinse aid.

NOTE: Wear water and slip resistant footwear. Wear rubber gloves to prevent skin contact when using by hand.

Specifications for Lino-Strip

Appearance	Clear, Light Amber Color
Fragrance	Fresh Scent
Specific Gravity	1.02
pH	7.5 - 8.5 Neutral (concentrated)
Dilution	1:4 Light build-up of floor finish
	1:2 Normal build-up of floor finish
	1:2 UVi Finish
Water Temp.	Dilute with cool water.
Rinseability	Excellent
Flashpoint	Over 212°F
DOT Shipping	Compound, Cleaning Liquid, N.O.I.
Storage Stability	1 year at room temperature
Freeze-Thaw Stability	Will freeze - but is not damaged after thawing

- Safe to use on Genuine Linoleum Floors*
 - Great Scent
 - Mild pH
 - Contains no Ammonia, Phosphates or Caustics.
- (* When used as directed)

Packaging

1 Gal, #906823
5 BIB, #906825
